🎯 Cloud DevOps

For more than ten years, first as a Full-Stack Software Engineer then as a Technical Lead and finally as Solutions Architect, I was able to learn about various functional domains (healthcare, banking/insurance...) while working with multiple technologies (Java, Angular, Node.js, Unix...).

In order to widen my skills around the lifecycle of application software, I took a position oriented around infrastructures in the Cloud, that I now wish to validate on other missions.

If it isn't documented, it doesn't exist

👤 Professional Experience

2024-01 to Present : Stereograph - BIM

DevOps Lead

- Analyzing and optimizing current infrastructure (technical & FinOps)
- Designing the infrastructure migration plan on AWS cloud
- Providing support to developers on DevOps related topics

Environment

- Docker, AWS, Azure, Linux, Windows Server, Azure DevOps, Terraform, Ansible, Python, Git, Jira
- 25 people

2022-07 to 2023-12 : Devoteam Revolve - IT Services

Cloud Consultant AWS

- Estimating, designing and developing features/fixes
- Producing, monitoring and maintaining Data oriented infrastructures on AWS

Customers - Domains

- Malakoff Humanis - Insurance

Environment

- J2EE, Angular, Python, Terraform, Git, Jenkins, Grafana, AWS (EC2, RDS, S3, Lambda, Athena, EKS...)
- 15 people

2019-01 to 2022-06 : Dedalus (ex-Inovelan) - Healthcare

Technical Lead then Solutions Architect

- Collecting and analyzing the requirements
- Designing solutions with the international partners and tracking their implementation
- Implementing development industrialization practices (Jira, documentation, code review...)
- Organizing brainstorming and continuous improvement practice workshops (process, POC, English...)
- Participating in presales, technical and functional designing workshops
- Conducting technical interviews

Environment

- J2EE, Angular, Node.js, REST, Git, HL7 FHIR, Drone CI, Docker, Unix, Agile (Scrum)
- 5 to 20 people

2010-11 to 2018-12 : Inetum (ex-GFI Informatique) - IT Services

Intern, Technical Analyst then Technical Lead

- Training and monitoring the team members
- Estimating, designing and developing features/fixes
- Quality control : PCI DSS/OWASP Top 10
- Managing development/testing environments
- Writing technical and functional documentation
- Backup project manager
- Conducting technical interviews

Customers - Domains

- Pacifica (Crédit Agricole) - Insurance
- Payline (Monext) - Web payment
- Metro Cash&Carry - Retail
- France Télécom (Orange) - Automation

Environment

- J2EE, Angular, Bash, SVN, Git, Unix, Agile (Scrum)
- 5 to 20 people

Education/Training

Certifications

- 2023-12 : Certificat de Connaissance Numérique Responsable
- 2023-04 : HashiCorp Certified: Terraform Associate (003)
- 2022-09 : AWS Certified Solutions Architect - Associate

Professionals

- 2016-12 : Développement d'applications riches avec Angular 2 - Zénika
- 2016-05 : AngularJS, maîtriser le Framework JavaScript de Google – Orsys
- 2015-04 : OWASP, Sécurité des Applications - Advens
- 2009-01 to 2011-01 : D.U.T. Informatique - IUT A Lille 1

Interests

- Cycling (utility, road, [virtual](#) & MTB)
- [Personal Knowledge Management](#)
- [Soap-making](#)
